

WANT GOV. MORTON FOR PRESIDENT

NEW YORK REPUBLICANS SO INSTRUCT.

Senator Davis Withdraws His Name and Minnesota Republicans Declare for McKinley—Results of Other Conventions Held Tuesday—General News of Political Arena.

New York, March 25.—The republican state convention on Tuesday endorsed Levi P. Morton for president. The delegates-at-large will be Thomas C. Platt of Tioga, Warner Miller of Herkimer, Chauncey M. Depew of New York, and Edward Lauterback. The electors-at-large will be Gen. Benjamin F. Tracy of New York and Edward H. Butler of Buffalo.

The McKinley men showed their hand in a motion to have Jewett and Thomas substituted for Platt and Lauterback as delegates to St. Louis. They were defeated by a vote of 631 to 109. The platform declares their firm and unyielding adherence to the doctrine of

protection to American industries, protection to the products of the American farm, and protection to American labor, and in favor of a reciprocity with other nations which shall give our producers and manufacturers an opportunity to dispose of their surplus products and to obtain articles we need from those countries on the most advantageous terms.

The financial plank is as follows: "We recognize in the movement for the free coinage of silver an attempt to degrade the long-established standard of our monetary system, and hence a blow to public and private credit at once costly to the national government and harmful to our foreign and domestic commerce."

"Until there is a prospect of international agreement as to silver coinage, and while gold remains the standard of the United States and of the civilized world, the republican party of New York declares itself in favor of the firm and honorable maintenance of that standard."

Gov. Morton's name was presented with the words: "We present Gov. Levi Parsons Morton as New York's republican candidate for president. His long and honorable public service, his spotless character, his great executive ability, his devotion to his party and its principles eminently fit him for the presidency and entitle him to our hearty and enthusiastic support. Therefore we instruct our delegates to the St. Louis convention to present him as our candidate for president, and urge upon them to use every honorable means to secure his nomination."

Thomas Fitch of Kings presented a resolution, "That if it appears after the first ballot that the Hon. Levi P. Morton cannot be the choice of the national convention, the delegates-at-large from this state will use all honorable means to promote the cause of William McKinley."

Then pandemonium reigned, one-half of the audience rising and shouting for McKinley as the name was read. The chairman's gavel was raised again and again, but without effect. When quiet was restored, the chairman put the Kings county man's amendment and the roll call was begun. The chair announced the vote of 631 against and 109 for the amendment, and then there was wild cheering.

SENATOR DAVIS WITHDRAWS.

McKinley the Choice of Minnesota Republicans.
Minneapolis, Minn., March 25.—Just before the state republican convention was called to order Tuesday it was announced that Senator Davis had wired Congressman Tawney withdrawing from the presidential race. This action was due to the refusal of three of the five Minnesota conventions on Monday to endorse his candidacy.

It was nearly 11 o'clock before the convention was called to order by Chairman Bixby, and when Congressman James A. Tawney arose before anything else was done and read Senator Davis' telegram of withdrawal there was unbounded excitement. It cleared the atmosphere wonderfully and gave free headway for the resolution naming William McKinley as the choice of the republicans of Minnesota as the candidate for president, which was adopted by a rising vote.

Following is the financial plank reported to the convention by the resolutions committee and adopted: "Resolved, That we favor the use of both gold and silver to the extent of

they can be maintained in circulation at a parity in purchasing and debt-paying power; that we are earnestly opposed, under the present conditions, to the free and unlimited coinage of silver, for the manifest reason that it would destroy such parity, enormously contract the volume of our currency by forcing gold out of circulation and immediately place us on a silver basis. Believing, also, that it is a self-evident fact that the effect of the international demonetization of silver can be overcome only by the international remonetization of that metal, the republican party of Minnesota most heartily favors an international conference for that purpose."

ILLINOIS CONVENTIONS.

Congressional District Delegates Named by the People.

Princeton, Ill., March 25.—By the action of eight townships in Bureau county selecting delegates to the republican convention at their township caucuses Tuesday, and adopting McKinley resolutions in each instance, the 11th congressional district is assured to the Ohioan. Bureau county, it is definitely shown, will instruct for McKinley, and its delegates, with those of LaSalle county, which has already instructed for him, will form more than a majority in the congressional convention.

Percy, Ill., March 25.—The republican county convention held at Sparta Tuesday, endorsed McKinley for president, William E. Mason for United States senator and John R. Tanner governor.

Rockford, Ill., March 25.—The Winnebago county prohibition convention was held here Tuesday. Delegates were chosen to the state convention.

Decatur, Ill., March 25.—The prohibitionists of Macon county elected delegates to the state and congressional conventions to be held at Springfield.

Princeton, Ill., March 25.—The prohibitionists of Bureau county held their convention to nominate delegates to the state convention Tuesday. They will support Mr. Patton of Springfield for governor.

THE TEXAS CONVENTION.

Allison-Reed Combine Appears to Be in the Lead.

Austin, Tex., March 25.—After waiting all day for the executive committee to pass on credentials looking to the seating of contesting delegations for temporary organization, the state republican convention was called at 9:15 o'clock Tuesday night, and a row was immediately precipitated over the matter of electing a temporary chairman. Finally the matter was definitely settled by the election of Coney, the Allison negro leader, by a vote of 407 to 205 for Rosenthal, his McKinley opponent. This action gives the Reed-Allison men control of the convention at to-day's session. It is said that the McKinley men will make an arrangement with Coney for a divided uninstructed delegation.

Nothing was done at the convention outside of effecting temporary organization, after which an adjournment was taken until 10 o'clock to-day.

Important Meeting of the A. P. A.
Washington, March 25.—What is regarded by its members as the most important meeting in the history of the A. P. A. was held here Tuesday by the advisory board of the order. There are thirteen members of the advisory board, all of whom were present at the session, which was secret and held behind closed doors. The meeting was called to outline the political policy and future plans of the organization and to formulate demands on the old political parties for the insertion in their respective platforms of planks opposing sectarian appropriations of public moneys.

South Dakota's Convention.
Huron, S. D., March 25.—The situation here is so thoroughly mixed that it is impossible to foreshadow the result of to-day's convention. While Senator Pettigrew has not the majority in the convention he has enough votes to hold the balance of power. Everything seems to indicate instructions for McKinley.

McKinley Delegates Chosen.
Warrensburg, Mo., March 25.—The republican convention of the 6th district met here Tuesday and named two delegates to the national convention at St. Louis. They are for McKinley. Resolutions opposing the unlimited coinage of silver at the ratio of 16 to 1 were passed.

Congressman Treloar Renominated.
Mexico, Mo., March 25.—William M. Treloar was renominated for congress Tuesday by the republican congressional convention which met at Warrenton. His opponent will be Champ Clark, whom the democrats are going to nominate without opposition.

Illinois High School Burned.
Bushnell, Ill., March 25.—The high school building burned in this city Tuesday afternoon. No lives were lost and not the slightest accident occurred, although school was in session and much excitement prevailed at the time among the pupils. The building was of brick, about twenty years old, and cost \$25,000. There was an insurance of \$1,500 on contents and \$9,500 on building.

Rudini's Speech in the Chamber of Deputies Has Produced a Good Impression—French Fleet to Stay at Home—Jameson's Trial—Other Foreign News.

Rome, March 25.—On account of the excessive pecuniary demands made by Menelek it is improbable peace will be concluded. Sigs, Ricotti and Rudini, who are in accord with the king, will refuse the payment of any money indemnity.

The diplomatic corps is extremely well satisfied with the speech made by Sig. Rudini in the chamber Saturday. He caused an especially good effect in Berlin and Vienna and has done much to strengthen the ministry. The premier said in effect: "I am the firm friend of Great Britain and the triple alliance and reports to the contrary are simply absurd. We desire to live on good terms with France."

Friendly to Arbitration.

London, March 25.—At the annual meeting of the Associated Chambers of Commerce of the United Kingdom, a resolution was passed expressing the appreciation of the Associated Chambers of Commerce at the friendly feeling displayed by the Chamber of Commerce of New York, and recording their strong desire that a method be found acceptable to both nations for settling in a conciliatory spirit any differences which may arise.

Spanish Government Explains.

Washington, March 25.—The Spanish government has officially disclaimed responsibility for the fiery views expressed in the columns of the Madrid newspaper, El Epoca. The article which has called forth the disclaimer was one demanding that the United States cease talking about the Cuban insurrection or else declare war at once upon Spain, and the government felt that it might be harmful because it was intimated that the article was inspired by it.

Father Killed, His Son Dying.

St. Paul, Minn., March 25.—A terrible accident happened to Frederick Gruby and his son Anthony on the farm near Foley, Monday, whereby the father lost his life and the son was fatally injured. They were engaged in repairing the underpinning of the second story of the granary, which was filled with wheat, when the framework collapsed, instantly killing the father and the son cannot recover. Both were buried beneath the debris and wheat.

Lexington, Ky., March 25.—William M. Shipp and C. W. Stone, cashier and bookkeeper of the Deposit bank at Midway, Woodford county, Ky., were requested to resign their positions by the directors of the institution two weeks ago. R. H. STRONG PLEA MADE BY SENATOR MILLS.

Urges Action By the United States in the Name of Liberty—Importance of the Recent Supreme Court Decision—Proceedings of the House—General Washington Happenings.

Washington, March 25.—In the senate on Tuesday a resolution offered by Senator Hoar was adopted requesting the President to transmit to the senate all dispatches, correspondence, etc., from Nov. 5, 1875, to 1878, concerning the pacification of the then pending conflict in Cuba.

Senator Mills was recognized at this point in support of the Cuban resolutions introduced by him. He said the people of Cuba had far greater claims on the United States than mere recog-

nition of belligerency. If Ireland struck for liberty to-day the hearts of the American people would beat in sympathy, and so if Poland or Hungary asserted the right of liberty. But the United States had much closer relations to Cuba than to Ireland or Poland or Hungary, for it was part of the western hemisphere over which the Monroe doctrine extended the influence of this country. Senator Mills declared that the Monroe doctrine was a law of protection, and as such God was the author of it. The senator read of atrocities attributed to General Weyler and added: "This is the work of that atrocious scoundrel. He could not be in Cuba to-day if the United States would draw her sword. How the cheeks of our American women must blush to know that this government stands idly by while Spain, with the keys of her dungeons dangling at her side, permits such an atrocious villain to raise his hand against defenseless women."

Mr. Stewart asked if Spanish bonds were not a potent factor in resisting intervention. Mr. Mills replied that there was something beneath the surface. He did not know how far sugar stocks would be affected by action on the part of the United States. It was asserted that trade would suffer, but Mr. Mills declared that \$100,000,000 would be a small expenditure for the glory of releasing the prisoners on the island of pines. It was the duty of the United States to protect and relieve those people or else to say to England or Russia: "Take that island and protect its people."

Mr. Mills' resolution went to the calendar and the senate resumed consideration of the legislative appropriation bill. The conferees of the two houses on the Cuban resolution held a session Tuesday, but without reaching a conclusion. Adjourned until today.

HOUSE WILL NOT RECEDE.

Insists on Its Substitute for the Senate Cuban Resolutions.

Washington, March 25.—Over a hundred members have taken advantage of the fact that the house has no important matters pending at this time to go home, and the attendance is consequently very slim. The bill which was debated Monday to abolish the death penalty in certain cases in which it is prescribed in the federal statutes and allowing the jury to return a verdict qualified "without capital punishment," in cases of rape and murder, was passed by a vote of 170 to 60.

Mr. Hitt, chairman of the foreign affairs committee, called up the message of the senate announcing the senate's disagreement to the conference report on the Cuban resolutions. On this motion the house insisted on its substitute for the senate resolutions and agreed to the further conference asked for by the senate. The conferees were not immediately announced.

Mr. Boutelle, chairman of the naval committee, reported the naval appropriation bill.

PREVENTS MONOPOLY.

Important Effect of the Recent Supreme Court Decision.

Washington, March 25.—The country has not yet awakened to the importance of the Supreme court decision in the Brown case, which puts the breath of life into the interstate commerce commission and endows it with teeth and claws, but the railroads and heavy shippers understand fully the significance, force and scope of the decision. It is estimated that the railroads of the United States pay \$75,000,000 a year

as rebates. "This terrific advantage has driven tens of thousands of small shippers and merchants to the wall during the last five years and led to the creation of vast and oppressive monopolies in the grain trade, the coal trade, the cattle and meat trade, and in all branches of merchandise where large capital can be and is used to advantage in a concentrated and consolidated way. These abuses have grown up because of the inability of the interstate commerce commission to punish either railroads or shippers. The principle as now established in effect grants a pardon in advance to witnesses turning state's evidence in rebate cases and gives the court power to punish contumacious witnesses for contempt for refusal to testify to facts within their knowledge. With this double and twisted cinch the interstate commerce commission now hopes to correct the abuses it has heretofore been powerless to combat.

The efforts of the railroads will now be turned to the enactment of pooling legislation. The principle enunciated by the Supreme court in the Brown case is logically applicable to trusts in every phase.

REMOVE DISABILITIES.

Officers of the Confederacy May Enter the Army.

Washington, March 25.—Senator Hill's bill to remove the restrictions against the appointment as officers of the army or navy of persons who held commissions in the regular army or navy before the rebellion, and who subsequently took part in the war on the side of the confederacy, which passed the senate during the height of the excitement over the Venezuelan question, passed the house Tuesday, after two hours' debate, with but one dissenting vote—that of Mr. Boutelle (Me.). The democrats—except Mr. Cummings (N. Y.), who spoke, as he said, "as one of 800,000 northern democrats who fought in the union army," and Mr. Wilson (S. C.), who was drawn into the debate by Mr. Boutelle—refrained entirely from participation.

Millions for the Navy.

Washington, March 25.—The naval appropriation bill for the fiscal year which begins July 1 next has been completed by the house committee on naval affairs and may be considered by the house this week. The total amount carried by the bill is \$31,611,034, of which \$12,779,133 is for the increase of the navy. The appropriation is an increase over the amount of the last bill, which was about \$29,330,000. Under the increase of the navy the chief items are the four new battleships and fifteen torpedo-boats. One firm, under the act, may bid for all of the vessels.

To Amend Interstate Commerce Law.

Washington, March 25.—Senator Peffer has introduced a bill providing for the amendment of the interstate-commerce law so as to authorize the interstate-commerce commission to proceed summarily by petition through the courts against any railroad company which may refuse to obey any requirement of the commission in regard to rates or charges on agricultural products and other freights and requiring the courts to give the precedence to such cases over others on their dockets.

For a Canal to the Ocean.

Washington, March 25.—Representative Hepburn (Ia.), has introduced a bill providing for a commission of five engineers to report upon the best practicable route for a ship canal having twenty-eight feet depth connecting the great lakes with the Atlantic ocean. Forty thousand dollars is appropriated for the expenses of the commission.

All Quiet at Holland, Mich.

Holland, Mich., March 25.—County Sheriff Keppel came here from Grand Haven Tuesday to see that no mob law is put in force. He immediately swore in a large number of deputies. Then he forbade the renting of the opera house for a proposed indignation meeting. Young Sooter's friends were much provoked when they learned of all these doing, but they feared to openly show their anger. The situation now has passed into the political. Thursday the local caucuses will be held. It is expected disapproval of the present administration will be shown then.

Convention May Go to St. Louis.

Chicago, March 25.—At a meeting of the general officers of the National Woman's Temperance Union held yesterday it was decided not to hold the next national convention in San Francisco, although that city had been previously chosen. The principal reason for the change is a request from the National Suffrage association, which is doing good work on the coast, that the plan be delayed for a year. It now looks as though St. Louis would secure the gathering.

Fire in a Lumber District.

LaCrosse, Wis., March 25.—A destructive fire which at one time threatened to destroy the entire northern portion of the city occurred here Tuesday. It started in the lumber yard of the N. B. Holway estate from a spark of a passing locomotive on the Chicago, Milwaukee & St. Paul railway. A fierce gale spread the flames with lightning rapidity among the huge piles of lumber along the eastern bank of Black river. Inside of three hours over 5,000,000 feet of lumber had been wiped out. Another fire was started at the Sawyer & Austin mill, but here the damage was not so great. The entire loss is estimated at over \$200,000. The insurance is not known.

Family of Seven Murdered.

Alma, Wis., March 25.—The bodies of the seven members of the Oldhouse family, burned in the fire which destroyed their home at Herold March 7, were exhumed Tuesday, and investigation showed that they had been murdered prior to the fire. Two bullets were found in the man's head, the mother had been killed with a hammer and one of the children perished by the same weapon. The motive was evidently robbery, as Oldhouse had sold his farm and was soon to remove to the west. No trace of the money was found, and there is no clew to the murderers.

MAY SELECT CARPENTERS.

That Trade Wants to Make the Fight for the Eight-Hour Day.

Indianapolis, Ind., March 25.—The executive council of the American Federation of Labor put in most of Tuesday discussing the eight-hour day. At the meeting in New York last December the convention decided to renew the agitation for a shorter work day and the executive council was empowered to select a trade to enter upon the fight. Three organizations have asked for the privilege, the carpenters being among the number. They have lost some during the last two or three years and they desire that they be allowed to regain this ground. The iron-ore miners and the horseshoers would likewise like to be chosen. The whole subject was referred to a sub-committee composed of Messrs. O'Connell, McGaire and Leum. It seems certain that the carpenters will be authorized to make the demand, and if this is done there will be a general strike of the carpenters throughout the country.

Great Britain Ready to Recognize Cuban Patriots.

Washington, March 25.—Aid for Cuba has come from an unexpected source. Great Britain will support the United States in any proposition to intervene to stop the butchery on the island. An informal intimation to this effect has been received at the state department and the status of the Cuban question has changed at once owing to this sudden development. The effect of the information when it becomes generally known will be to render almost certain speedy action by this country.

Wealthy Philadelphian in Trouble.

Philadelphia, Pa., March 25.—Samuel P. Langden, a wealthy coal operator, was arrested Tuesday on suspicion of having been implicated in the death of Annie McGrath, who was found dead on her bed in a Girard avenue house Monday night. Langden is 54 years old and the girl was 18. Although he has a residence in Powelton avenue he and the girl had been living in the Girard avenue house for about a month. The only other occupant was a colored servant. They were supposed to be man and wife. Miss McGrath was the daughter of a well-known business man. Langden is reputed to be one of the wealthiest coal operators in the state. He is also financially interested in a number of southern railroads. The girl was his stenographer.

CANCERS!

Surely a Wonderful Remedy Is Found.

We have already called attention to the fact that "Septicide" the recently discovered antiseptic remedy, by a Milwaukee chemist, is causing quite a sensation among scientists by its decisive action in destroying the cancer germ. Letters are pouring into the office of the Septicide Co., Milwaukee, from all parts of the United States, both, ordering the remedy and blessing the company for the good they are doing. Mrs. Grecian of Kenosha, Wis., was one of the intense sufferers from an ugly cancer on her face, which gave her the most excruciating torture every time it was dressed. This is what she now says:

"I can now safely say that I am almost cured. There is one little place yet, but it is gradually going away, and I feel assured that it will disappear soon, and I shall be a well woman; thanks to your good remedy and thanks to our Heavenly Father for giving such power to your Septicide which is the most wonderful remedy I ever saw. My quick relief is getting many others to try Septicide; they have great faith in it from seeing my speedy relief, when I suffered so terribly as it was great torture for me to dress my face. Yesterday a lady friend, who heard how near well I am clasped her hands with surprise and gladness, and told her daughter she was going straight to the drug store to see about Septicide. My children and myself continually praise Septicide to all the afflicted we meet. God bless you in your good work, is my constant prayer. Mrs. Elizabeth Grecian."

THE VETERANS MET AT THE CAMP FIRE

ENJOYABLE SESSION AT THE
M'KEY STORE.

Speeches Were Made by Commander
Hoard, Col. E. B. Gray, S. H. Talmadge, Capt. Norcross and Others
Banquet Served on the Second Floor
By the W. R. C.

JANESVILLE veterans were the hosts at the big McKey store on South Main street last evening, where the biggest campfire ever held in the city occurred, under the joint auspices of W. H. R. C. Post, G. A. R. and No. 21, W. R. C. Supper was served in the big room upstairs at 5 o'clock, but the entertainment did not begin in the main room until 8 o'clock. Martial music opened the programme, and was followed by Hildebrandt's orchestra. Post Commander Palmer's name was next on the programme, but he called on Captain Pliny Norcross to take his place. Captain Norcross made one of

COLONEL E. O. KIMBERLEY.
his characteristic speeches—brim full of wit and brightness—and closed by extending a hearty welcome to all present.

The male quartette, composed of Colonel E. O. Kimberley, William Garbutt, D. D. Bennett and Archie Crawford, then sang "Welcome Tonight" in so finished a manner that they were called back to sing "My Native Land" after which Post Chaplain Halsey invoked the Divine blessing.

Dr. J. B. Whiting, Surgeon General of the United States, was next on the program, but he was called out of the city, and S. H. Talmadge of Milwaukee, was introduced. He spoke of the popularity of the camp fire, and closed by reciting "We're Going Into Camp, Boys."

Governor Upham was not present,

owing to illness that compelled him to go south, and Col. E. B. Gray spoke in his stead. His remarks were most entertaining, and he likened the camp fire to the story told of Beecher and Greeley. Greeley had just been on a

COMMANDER W. D. HOARD.

lecture tour in the west. On his return he was met by Beecher who asked him how the people in the west liked lectures.

"Good," replied Greeley.
"How do you know?" asked Beecher.
"Because more of the people stand than went away," was the reply.

Mrs. O. H. Brand then recited "Sherman's March" and was accorded an encore but did not respond owing to hoarseness.

Commander Hoard was the last speaker. He said he hardly knew whether he was farmer, politician or soldier, or whether the three composed that which we denominate American character. He spoke of the horror of the war, but said it was necessary to settle great questions. Neither side was lacking in bravery and both fought for what was supposed to be right. Liberty won the battle. War he said to be square and just to every man; taught him to hate aristocracy; to love his fellow man and to teach the young to be truly American.

He told of the great principles that composed American institutions, and said that a man who unfurled them was headed toward treason. He said he had no use for that man's politics who did not prefer his country to his party, and in closing told a number of good stories, that the audience enjoyed fully.
"America" by the audience and quartette closed the program.

GOV. UPHAM'S PROCLAMATION.

May 1 Set Apart as Arbor Day in Wisconsin.

Governor Upham's proclamation appointing May 1 as Arbor day was issued today. It is as follows:

In confirmation with law and a custom which in a few years has commended itself to the people of the state, I, William H. Upham, governor of the state of Wisconsin, do hereby design and set apart Friday, May 1 next, as Arbor day, and recommend that the public schools and other educational institutions and the citizens of the state generally do observe the same in an appropriate manner. I recommend that the day be devoted as in former years to the very general planting of trees, shrubs and flowers, to the end that lawns and especially school grounds and public parks may be permanently enriched and beautified.

A Good Thing For the People.

There are thousands of people who, while not exactly sick, are out of order or ailing in some way. They don't feel well and can't understand what the trouble is. You can learn exactly what ails you, without its costing anything, by writing a letter to the noted and successful specialist, Dr. Greene of 35 West 14th street, New York city, and telling him just how you feel. He will answer it, explaining every symptom in your case and telling just what to do to get well. He gives most careful attention to every letter and makes his explanations so clear that you understand exactly what the matter is, and how to cure it. And all this costs you nothing.

He makes a specialty of treating patients through letter correspondence and this method has proved wonderfully successful. His vast experience enables him to understand from reading your symptoms, the exact nature of your complaint. He is the discoverer of that wonderful remedy, Dr. Greene's Nervine blood and nerve remedy, the best medicine in the world, and he has discovered many other valuable remedies. People living at a distance from the city will at once see the great advantage of this system of consultation and treatment by letter correspondence. No long journey, and no doctor's fee. Write him and it will doubtless be the means of your getting strong and well.

"The Old Kentucky" Friday Night.

"In Old Kentucky," that stirring spectacular play of which so much has been written in praise, is a powerful and captivating story of Kentucky life, with a plot rounded and distinct and upon which every episode has a distinct bearing. It is an elaborate scenic production as well, representing scenes in the mountainous and blue grass regions of Kentucky, with marvelous fidelity. The company is said to be an exceptionally strong one, and it will be safe to venture the assertion that the engagement will be a profitable one, for no other theatrical attraction of the last two seasons has met with such great financial success. "In Old Kentucky" has made a fortune for its owner and another for its author. This play will be seen here Friday night.

MANY THOUSANDS

Vitally Interested in the New Discovery.

Whereby Nine-Tenths of the American People Will Be Benefited.

A Brief Account of It.

A man or woman with perfect digestion, the result of a healthy stomach, has no need of a nerve tonic to bring sleep, nor sarsaparilla to purify their blood, nor cod liver oil and pre-digested foods to make them fat. Why? Because a sound stomach perfectly digests the food, making pure, rich blood, steady nerves, sound sleep and all the healthy flesh a person needs to carry. Dr. Bostwick recently stated that anyone out of health, nervous, sleepless, not knowing just what was the matter of the whole trouble. He says nine out of ten will have no nervous system, no impure blood, no weakness anywhere when the digestive organs do their work properly. To cure indigestion and dyspepsia he never advises "sarsaparilla," "stomach bitters," "pre-digested food" or any other secret patent medicine. He says the best thing, the safest and surest cure is Stuart's Dyspepsia Tablets, because they are composed of vegetable essences, fruit salts, pure pepsin and bismuth and will cure dyspepsia in every case if taken persistently and regularly. Some of the cures made by Stuart's Dyspepsia Tablets are little short of miraculous.

Mrs. Charlotte Lane, of Ransomville, N. Y., writes: "I have taken one or two packages of Stuart's Dyspepsia Tablets and am almost astonished at results, they have benefited me so greatly. I have always understood that dyspepsia was incurable, but now know it can be cured, for I am fully satisfied with what they have done for me. I can eat and enjoy my meals a great deal better and feel better in every way and have only used one package."

Mr. J. O. Wondly, of Peoria, Ill., writes: "I was unable to eat anything but the plainest food, and even that often distressed me, but since using one box of Stuart's Dyspepsia Tablets I can eat anything and everything I want."

Mrs. Samuel Kepple, of Girty, Pa., writes: "I have been entirely relieved of my stomach troubles by your Tablets. I suffered three years with sour stomach and gas at night. I am thankful for them."

Mrs. A. E. Bowen, of Barnard, Vt., writes: "I think Stuart's Dyspepsia Tablets are the best thing for dyspepsia I ever took. I will recommend them to anyone troubled as bad as I was."

Although a new remedy, yet its remarkable success in all kinds of stomach troubles has practically settled the question that it is the best and safest remedy that can be used for weak or disordered digestion.

It is prepared by the Stuart Chemical Co., Marshall, Mich., and for sale by druggists everywhere at 50 cts. per package, the placing it within the reach of everyone wishing to give a remedy so highly commended a fair trial.

Beautiful flowers and pretty new pattern hats make a combination that few of the fair sex can resist. Such was proven to be the case at least in the first day of the spring opening at Miss Bellinghausen's millinery parlors, in the Palmer block. Many ladies availed themselves of the opportunity of seeing the late styles and patterns in spring headgear at the Chicago milliner's new place of business today, and in every sense the efforts of the lady were successful. The hats shown were the latest pattern and together with the general arrangement of the parlor, gave a most pleasing impression before entering.

Sometimes the most careful women are the most careless. Many a woman bundles herself up, to keep out the cold—to keep out sickness—when she is neglecting the very worst sickness that can come to a woman. She allows a slight disorder to become worse, to slowly sap her vitality. The little pain and the other slight indications of trouble seem to her unimportant. She goes on, with increasing suffering, until life itself becomes a drag. Nervousness, "sinking spells," digestive disturbances, and fifty other complications may arise from the derangement of the organs distinctly feminine. Over thirty years ago, the need for a reliable remedy for so-called "female complaints," was recognized by Dr. R. V. Pierce, then, as now, chief consulting physician to the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y. He prepared Dr. Pierce's Favorite Prescription, the most wonderfully effective remedy that has ever been used for such maladies. Sold by all medicine dealers.

THE DEMOCRATIC ORGAN GOES
BEHIND RETURNS.

While It's Writers Assail Alderman Burnham and the Other Republican Councilmen, it Falls to Pick Flaws in the Doctrine of Ex-Mayor Winans.

The Recorder goes behind the returns in this morning's issue, to throw mud at the republicans. If the writers of that paper will turn to the files of 1887 and read Mayor Winans' message to the common council, they will find that this matter has attracted attention before, and they will be compelled to cease assailing Alderman Burnham—a man who makes sure he is right, and then goes ahead. A committee of the council—composed mostly of democrats—last year bought a street roller and stone crusher. Both were first class machines, but will the Recorder writer read Mayor Winans' message and then tell to what uses they can be legally and legitimately put? Mr. Winans, in his message stated to what use city funds could be put, as follows:

Ward Funds.
"Complaint by the property owners on West Milwaukee street has been made that the ward funds have been used for improper purposes, it may be well therefore to state their legitimate uses:

"First—For the construction and repair of drains, across streets, alleys and public grounds.

"Second—For the construction of streets and walks in front of and across public grounds.

"Third—For the construction and repair of culverts and sewers in streets, alleys and public grounds.

"Fourth—For the cleaning and cleansing of streets, alleys, crosswalks, drains, culverts, and sewers.

"Fifth—For keeping in repair streets, alleys, drains, sewers, culverts and crosswalks after being constructed, graded, leveled, macadamized, planked or paved.

"And it may be well in this connection to state the uses to which some of the other funds can only be put under the charter:

General Fund.
"First—For the current expenses of the city.

"Second—All other expenses of the city not otherwise specially provided for by the charter.

"Third—For the cost in whole or in part if deemed just, of constructing drains, culverts, sewers, streets and walks across or in front of public grounds, and repairing and cleaning the same.

"Fourth—For paving intersections of streets.

"Fifth—For paying such sums as may be assessed to the city on laying out any street or public square.

Highway and Bridge Fund.
"To the maintenance and repair of bridges only.

Special Assessments.
"Special assessments MUST be made for the following purposes.

"First—Grading and regrading the streets.

"Second—Graveling and regravelling the streets.

"Third—Leveling of the streets.

"Fourth—Macadamizing and remacadamizing of streets.

"Fifth—Paving and re-paving of streets.

"Six—Curbing and re-curbing of streets.

"Seventh—Surface drains and gutters and repairs thereto in and along sides of streets and alleys adjacent to private property.

"Eighth—Sidewalks and their repair.

"Ninth—Damages on re-grading a street.

"Tenth—For lands taken for public streets and squares."

What Violation Means.
"It is perhaps unnecessary to remind you that the misappropriation of the monies in any fund subjects the person voting therefor to a penalty of \$50 for each and every offense. It may also be unnecessary to remind you that no monies can be appropriated for any purpose whatever, except such as are expressly authorized by the act of incorporation; that no appropriation can be made or ordered drawn from the treasury without a vote of a majority of all the members of the common council in favor thereof to be taken by yeas and nays and entered on the proceedings of the council; that no money can be drawn from any funds in the treasury except for the purposes for which it was raised and appropriated, and that you cannot contract indebtedness or incur liability or appropriate money in any one year, payable out of any fund, authorized to be raised in said city, to a greater amount than the amount of such fund so authorized to be raised without subjecting whoever shall vote therefor to a like penalty of \$50 for each and every violation. My excuse for calling your attention to these several limitations of your power is that they were made in the interests of the tax-payers; the due observance of which is of great importance to them, and will save you from just criticism and blame."

Can a Comptroller Do The Work?
Mayor Baines has declared himself as being in favor of having a comptroller to protect the city funds and save the public money. But could that official audit one-fourth of the bills now paid by the city?

It is undoubtedly true that the present system of doing street work is

more convenient for the aldermen, than under the proposed rule, but Alderman Burnham's resolution would eventually cut off the greater part of the illegal expenditures. Now all an alderman has to do, is to introduce an order instructing the street commissioner to "repair" a certain street "under the direction of the alderman of the ward." Clothed with this order—and it is illegal, because the charter requires that the street commissioner, "under the direction of the common council," shall execute such orders—the alderman goes to work to grade or gravel the street to his own satisfaction, and the ward fund pays the bill. Mayor Winans held that such violations of the charter carry a fifty dollar fine with them, and the law has not since been changed.

Alderman Burnham's order seeks to carry out the charter's provisions as did Mayor Winans' message. Therefore, as The Gazette stated last night, "good reasons for its rejection are not apparent." It would do away with a comptroller and save the city money.

Such being the case, why should the Recorder froth at the mouth?

They didn't attack Mayor Winans' message.

Such attempts to make political capital and awaken unfavorable feeling against faithful aldermen, are unworthy of an honest journal.

THE BECK OF DEATH
IS RESPONDED TO

HON. DANIEL JOHNSON CALLED
HOME.

He Was One of Rock County's Earliest Settlers, and Most Respected Men—Sketch of His Busy Life—Demise of Mr. Paubman—Mrs. W. H. Ebbetts No More.

Hon. Daniel Johnson, one of the earliest settlers and best known men in Rock county, died at his home in Evansville yesterday, aged seventy-four years.

For fifty years Mr. Johnson had been prominent in Rock county affairs. In 1838 he left the home of his parents in Ohio, and started west on foot, passing through Chicago which was then an insignificant village with no prospects of being anything else. He worked his way to Wisconsin, and in 1839 reached Walworth county with \$4.50 in his pocket. He entered the employ of Henry Phoenix at Delavan, and helped to build the saw mill at the outlet of Delavan lake.

He then returned to Indiana, where his parents had removed, and in 1839 was married to Miss Angeline Courter.

Portrait of Daniel Johnson.

Mr. Johnson was then eighteen years of age, and his wife but seventeen. The next May Mr. Johnson and his bride came to Wisconsin, his parents accompanying them, and took up a claim in the town of Union. Soon afterward Mr. Johnson was employed by General Worth in removing the Winnebago Indians to Prairie du Chien.

Mr. Johnson's first residence was built of logs without a sawed board or pane of glass in it. His father, David Johnson, resided in this county until 1877, when he died aged eighty-one years.

Retired From Business.

In 1863 Mr. Johnson retired from business and took up his residence in Evansville. He was elected to the assembly in 1865 and served as sheriff of Rock county in 1869 and 1870, during which time he resided in the city. For seventeen years he was a member of the county board of supervisors and for seven years he was chairman of that body. In politics he was a republican. He cast his first vote for Gen. Zachary Taylor in 1848 and like his father, belonged to the anti-slavery branch of the Whig party, joining the republican party on its organization. He attended the meeting at Madison when the party was formed and assisted in its inception. Both Mr. and Mrs. Johnson were communicants in the Episcopal church. After retiring from business, Mr. Johnson and his estimable wife spent considerable time in traveling, and have visited every state in the union except Oregon. They spent one winter in Florida, and explored the Yosemite Valley. Mr. Johnson was a member of the Masonic fraternity, belonging to Union Lodge No. 32, Evansville chapter R. A. M., No. 35, and Janesville Commandery.

The funeral will be held at the home at 2 o'clock tomorrow afternoon, and will be under Masonic auspices, as told in a notice in another column. A Janesville delegation will attend, to do escort duty, the train on which they will go leaving at 10:50 a. m. and returning at 6:25 p. m.

Mrs. Estella Russ Paubman.

A telegram was received by friends in this city yesterday, announcing the sudden death of Mrs. Estella Russ Paubman, daughter of Mrs. Melinda Russ, of 90 Diversey Place, Chicago. Mrs. Paubman was but recently married and her sudden death will be a severe shock to her husband and mother, who is an invalid. Previous to her marriage Mrs. Paubman held for a number of years a very responsible position with a large real estate firm in Chicago.

Mrs. W. H. Ebbetts.

Mrs. W. H. Ebbetts, whose husband was at one time one of the leading lawyers of Milwaukee, and for years a resident of Janesville, died at Milwaukee yesterday at an advanced age. The remains will be brought to Janesville for interment, but no further particulars were received.

THE outfit of the former Glass photograph gallery will be held at the old rink building on River street at 10 o'clock tomorrow evening.

E. M. HARDY'S HOME
ROBBED LAST NIGHT

BURGLARS WORKED IN SECOND WARD.

House Was Entered While the Family Was at the Campfire, and an Overcoat and Old Coins Valued at \$15 Were Taken—Police at Work.

Burglars broke into the residence of E. M. Hardy on East Street North last night, and stole an overcoat and \$15 worth of rare coins. The police have a clue and hope to catch the guilty parties.

The crime was committed some time between 6:30 and 11 o'clock. Mr. and Mrs. Hardy left home at 6:30 to attend the G. A. R. campfire. When they returned, about 11 o'clock and opened the front door, they were surprised to find the house cold. Investigation showed that thieves had been at work, and the open window in the rear portion of the house showed how the robbers had entered, and explained the fact that the building was cold. The booty received so far as known, consisted of an overcoat belonging to Mr. Hardy and the money mentioned. The coat was dark blue in color, and can easily be identified. The money was taken from Mr. Hardy's collection of coins, among the missing pieces being three trade dollars bearing date of 1875, and several bills of unusual date. The coins were worth about \$15 all told. The police think the work was done by home talent, and hope to catch the thieves.

WHAT HEADACHE IS.

THE DANGER SIGNAL THAT NATURE GIVES TO WOMEN.

It Signifies That Serious Female Trouble Is Imminent.

Most female diseases manifest their presence by a headache.

When a dull heavy ache in the head is accompanied by disordered stomach, bad taste in the mouth, dull eyes, pains in back and groins, lassitude, nervousness, despondency and irregularity,

it is time to locate the trouble and remove it. We will tell you right now that the symptoms indicate positively that serious womb trouble is imminent.

Don't let this fearful disease get you in its power. If you are uncertain, write to Mrs. Pinkham, at Lynn, Mass., giving full symptoms. Your letter will be read, acted upon and answered by one of your own sex, and without charge.

Note Mrs. Snyder's letter to Mrs. Pinkham.

"Before taking your remedies, day after day I would read the testimonials of women who had been cured by the use of your Vegetable Compound.

"At last I decided to write and tell you my condition.

"I had been examined by physicians who told me that my womb was very large and prolapsed, and also said there was a growth on the inside of the womb that must be cut out; menstruations were so painful that I suffered for three days of every month, and it was impossible to get any rest.

For two months I used Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Sanative Wash, and now I am entirely cured. I had suffered nine years, thinking there was no cure for me, and it only took five bottles of your remedies to cure me."—MRS. L. SNYDER, Trenton Junction, N. J.

HO! FOR MISSOURI.

There is certain to be a decided activity in the sale of Missouri farms this year. During the last six months inquiry for improved farms in Missouri has been greater than ever before. There is no part of the West where more inviting prospects abound for the farmer, and but for the hard times all over the country there would be an actual boom in Missouri. The farmer who is looking for perpetual summer and never failing deposits of moisture, land that will raise abundant crops, and other Eden-like conditions, which everybody would like to have, will search in vain for those conditions, but if he will stop in Missouri and settle down to business he can approach nearer to his ideal than he can anywhere else in the Union. It has been the experience of Missouri farmers, that they have had as many blessings of Nature and as great a degree of prosperity as those of any other section of our great country. Missouri no longer turns the cold shoulder to home seekers. There is not a nook or corner of the state where the security of property, now, is not as well assured as in any other state in our land. Taxes are generally very low, and very much lower than they are in Wisconsin. Political opinions are no bar to the enjoyment of every right of citizenship. Sure crops, ample transportation for all products of the soil, convenient markets, cheap fuel, mild climate, abundance of timber of all kinds, pure water, nutritious grasses, blue grass pastures, and above all her vast crops of all kinds of fruits are among the advantages to the farmer. No state or locality leads MISSOURI in the production of fine fruits. Not even France or Spain, with their vast vineyards, have any advantages over Missouri in fruit-growing. In four years' time we have sold over \$300,000 worth of improved farms in Missouri. We are now prepared to sell improved farms, in thickly settled locations with lands as good as any in Wisconsin, at from \$20 to \$40 per acre. We can furnish excursion rates to Macon, Mo.

We have A MOST BEAUTIFUL FARM of 800 acres right at a station of 2000 inhabitants on the Santa Fe railway, in Lin Co., for sale at \$35 per acre. The buildings and improvements on this farm cost over \$12,000. Can give time on two-thirds of price at six per cent. interest.

THEY SAY !

That a man talks about the weather because he can't think of anything else to talk about. That's about the case with the man who has always been going to the tailor for his Clothes.

He Pays About 40 Per cent. Too Much,

You Must Remember

that the "wholesale tailors" employ tailors; can buy the best fabrics; have straight connections with the most authoritative fashion centers, and can make a suit because they make many

At Half The Merchant Tailor's Price.

Look Into This Thing.

Come in some day and permit us to show you what a ready-to-wear suit or spring overcoat of our tailored make is like. You never saw ready-to-put-on clothes like them, because there are none so good.
